DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-24, drawn to a method of producing a laminated packaging material.

Group II, claim(s) 25-26, drawn to a laminated packaging material.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Claim 1, from which claims 2-24 depend, of Group I is anticipated by WO 98/09812.

Group I, claims 1-24, has the special technical feature drawn to a method of producing a laminated packaging material comprising a barrier layer wherein said barrier layer comprises a liquied barrier composition including a polymer and an inorganic laminar compound applied on at least one side of a carrier layer wherein the barrier layer is combined and permanently united with one side of a core layer. Group II, claims 25-26, has the special technical feature drawn to a laminated packaging material produced by fold formation. The fold formation step is not required in the method of Group I.

Accordingly, since the recited method, Group I, does not make a contribution over the prior art, and the fold formation step, a special technical feature of Group II, is not required in the method of Group I, unity of invention is lacking.

A telephone call was made to Elaine Spector on 8/4/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

BEST AVAILABLE COPY

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
